Hello, friend! Welcome to Give & Take—we're so happy to see you!

I'm Aja, and this coffee dream began with years of visiting amazing shops, collecting inspiration for what I wanted to bring to Charlottesville: a shop where community comes first and every ingredient matters.

We hand-select beans from world-class third-wave roasters, curate premium loose leaf teas and ceremonial-grade matcha from centuries-old farms, and craft nearly everything with organic ingredients—the same quality I'd use at home when making drinks for the people I love.

Our passionate baristas take pride in matching you with your perfect drink. We believe in the magic that happens when great coffee meets genuine human connection.

The name says it all—we give our best to you, and you give this community its heart. Enjoy our specialty drinks made with love and served with joy.
